Africa Development is the quarterly bilingual journal of CODESRIA. It is a social science journal whose major focus is on issues which are central to the development of society. Its principal objective is to provide a forum for the exchange of ideas among African scholars from a variety of intellectual persuasions and various disciplines. The journal also encourages other contributors working on Africa or those undertaking comparative analysis of Third World issues.

Africa Development welcomes contributions which cut across disciplinary boundaries. Articles with a narrow focus and incomprehensible to people outside their discipline are unlikely to be accepted.

The journal is abstracted in the following indexes: *International African Bibliography; Documentatieblad; Abstracts on Rural Development in the Tropics; Documentationselienst Africa; A Current Bibliography on African Affairs.*

Afrique et Développement est un périodique trimestriel bilingue du CODESRIA. C'est une revue de sciences sociales consacrée pour l'essentiel aux problèmes de développement et de société. Son objectif fondamental est de créer un forum pour des échanges d'idées entre intellectuels africains de convictions et de disciplines diverses. Il est également ouvert aux autres chercheurs travaillant sur l'Afrique et à ceux se consacrant à des études comparatives sur le tiers monde.

Afrique et Développement souhaite recevoir des articles mobilisant les acquis de différentes disciplines. Des articles trop spécialisés ou incompréhensibles aux personnes qui sont en dehors de la discipline ne seront probablement pas acceptés.

Les articles publiés dans le périodique sont indexés dans les journaux spécialisés suivants: *International African Bibliography; Documentatieblad; Abstracts on Rural Development in the Tropics; Documentationselienst Africa; A Current Bibliography on African Affairs.*

NEW RELEASE CODESRIA BOOK SERIES

This book is an interrogation of African studies, its formulations and fetishes, theories and trends, possibilities and pitfalls. As a discursive formation, African studies is, of course, immersed in the contexts and configurations of the Western epistemological order.

"This book is a 'docu-drama' in book form. It uses both fact and fiction, and mobilizes both the computer and the Muse. Paul Tiyambe Zeleza reinterprets the African condition and examines those who study it. Especially fascinating is his scrutiny of Africa's most dangerous mambouts of the twentieth century — academic Africanists from Western and neo-Western universities. Postmodernism and postcoloniality may still be in vogue, but this book inaugurates the new era of post-pessimism".

NEW RELEASE CODESRIA BOOK SERIES

Although all authoritarian regimes in Africa are not military in character, the question of the military has been central to the current issue of democratisation on the continent. The contributions in this volume deal neither with the definitive erosion of the military and civil authoritarianism, nor with the inexorable march toward democracy but with what appears in retrospect to be a less clear-cut and more open-ended state of transition, located ambiguously between the crisis of authoritarianism and the prospect for democracy on the continent.

The contributors emphasize the uneven patterns and forms of militarisation in Africa but within and between regimes.
