CODESRIA BOOK SERIES

ZIMBABWE
THE
POLITICAL ECONOMY
OF TRANSITION
1980-1986

Edited by
IBBO MAINDAIA

SECOND EDITION

SOUTH-AFRICAN LABOUR BULLETIN

Extending well over 400 pages divided between an introduction and five sub-sections each containing two or three chapters, **this formidable collection of essays** examines the pattern and course of events in Zimbabwe since independence.

... While the contributors, in Cabral's phrase, tell no lies and claim no easy victories, they nonetheless point to the fluidity of the situation in Zimbabwe, especially given the unfolding crisis in South Africa. **This is a book which deserves to be widely read and closely studied.**

An unusual... and impressive text on post-colonial Zimbabwe with the editor presenting a **tour de force**, a forceful analysis of the struggle that led to independence and the nature of the post-white settler colonial State.

...The political economy on transition is an **essential purchase** not only for the sharp insights that it provides into post-independence Zimbabwe but also as a historical document of -to paraphrase Amilcar Cabral- **the struggles that make Africans return to their history...**

VIENT DE PARAÎTRE SÉRIE DES LIVRES DU CODESRIA

Cet ouvrage est le premier qui a été produit par un groupe national de travail francophone du CODESRIA. Il se propose, depuis des horizons pluridisciplinaires divers (Histoire, Sociologie politique, Economie...), de jeter des éclairages sur les structures étatiques au Maroc dans la longue durée afin de répondre aux interrogations majeures suivantes : quelles sont les mutations importantes de l'Etat marocain survenues sous l'effet de la pénétration étrangère? Dans quelle mesure ces mutations sont-elles porteuses d'une nouvelle nature de l'Etat marocain? Une modification de la nature de l'Etat est-elle nécessairement

corrélative d'un changement de sa forme phénoménale d'organisation (type du régime politique)? Quel type de mutations des structures étatiques post-coloniales? Y a-t-il continuité ou discontinuité par rapport à l'administration coloniale?

Il comporte six études réparties en deux grands thèmes qui sont les suivants : les mutations des structures étatiques sous la pression de la pénétration étrangère et la continuité et la rupture dans l'Etat marocain post-colonial. Ces études viennent après une introduction détaillée de Abdellali DOUMOU qui a assuré la direction scientifique de ces travaux.

Dans l'ensemble cet ouvrage constitue non seulement une contribution significative aux études consacrées à l'analyse de la nature et des fonctions de l'Etat en général mais il complète harmonieusement des études faites antérieurement sur "l'Etat dans les Sociétés dépendantes".

CODESRIA BOOK SERIES

The book is the outcome of a National Working Group in Tanzania under the auspices of CODESRIA. The focus is on elucidating relations between the State and the working people in post-independence Tanzania. In addition to a powerful introduction by Issa Shivji, the rest of the six chapters tackle the parliament and the electoral process, the party, labour legislation, the State and peasantry, cooperative societies and marketing boards and student struggles. According to one of the recent reviews

**THE
STATE
AND THE
WORKING PEOPLE
IN
TANZANIA**

Edited by Issa G. Shivji

.....To try and analyse the crisis in Africa is by no means an easy task. But what makes the present work even more interesting is that it focuses attention on Tanzania. As Issa Shivji puts it, "The Tanzania State is among the few in Africa which has hitherto managed to sustain a liberal image while at the same time establishing a virtual organizational hegemony over its working people and popular classes". **How did Tanzania**

achieve this enviable record? This is one of the questions which this collection of essays seeks to answer.

On the whole the book makes a very valid contribution to political debates going on in Africa. It would be compulsory reading for anyone wishing to understand the nature of neo-colonial societies, the role of the State in destroying democratic organizations.
